WILLKOMMEN IN DER WELT VON KÄSCH

KÄSCH ist ein international renommierter Hersteller exklusiver Acryl-Badewannen und Whirlpools mit langjähriger Erfahrung in der Verarbeitung von hochwertigen Kunststoffen. Die Philosophie von KÄSCH ist Wannen und Whirlpools zu entwickeln für maximale Entspannung und größtes Badevergnügen.

Schlichtes, elegantes Design kombiniert mit kompromissloser Qualität in Material und Ausführung, ob Wanne oder Whirlpool, charakterisieren die Produkte von KÄSCH. Alle Wannen sind nach anatomischen und ergonomischen Anforderungen gestaltet und geprüft.

Die Summe aus diesen Merkmalen ist der Grund dafür, dass diese Produkte in führenden Hotels der Welt zu finden sind. Internationale Designauszeichnungen bestätigen die Philosophie.

WELCOME IN THE WORLD OF KÄSCH

KÄSCH is an internationally operating, German based manufacturer of exclusive acrylic bathtubs and whirlpools with many years of experience in working with high quality acrylics.

The philosophy of KÄSCH is to create bathtubs and whirlpools for a maximum of relaxation and wellbeing. Simple yet elegant designs combine top quality materials with a skilled workforce to make our products unique.

All our bathtubs are produced under anatomic and ergonomic scrutiny. All these points together make us one of the leading suppliers to the best hotels in the world. Internationally recognised design awards support this philosophy.

OVERFLOW Collection

Der reine Genuss – ein Bad im Einklang mit sich und der Natur – ein sinnliches Erlebnis, ausgleichend und entspannend. In einem OVERFLOW Whirlpool von KÄSCH konzentrieren Sie sich ganz auf sich und ein wohltuendes Massagegefühl. In einem nie enden wollenden Kreislauf fließt das Wasser in das Becken zurück, so dass Sie dieses visuelle und akustische Erlebnis während des gesamten Bades genießen können.

07

The ultimate bathing experience, the kind you would feel in natural surroundings; the sound of waterfalls and spring waters, revitalizing the body and soul come by way of OVERFLOW-Whirlpool from KÄSCH. The overflow systems offer an enhanced bath that touches all your senses, covering the complete body, while the accompanying sounds of water sooth a stressed mind.

ORIENTAL

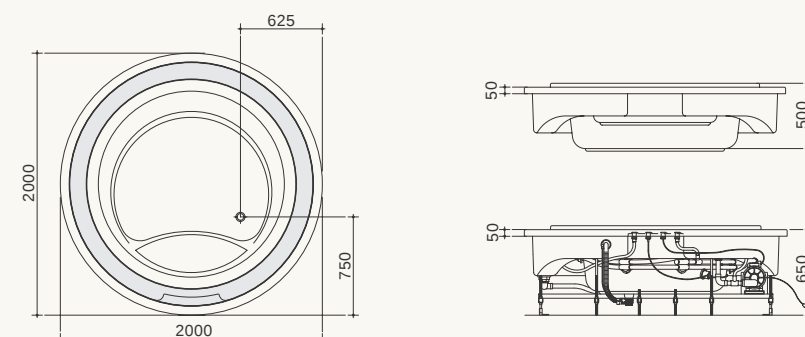

ORIENTAL ist von beeindruckender Geräumigkeit. Eine Abstufung im Innenraum gibt Halt und erleichtert das Einsteigen. Der Einbau in Kombination mit Holz erweckt die Anmutung der Symbiose aus Kraft und Sanftheit. Ein Blickfang in Ihrem Bad. ORIENTAL ist speziell designed für das große Relax-Erlebnis.

ORIENTAL is specifically designed to get the maximum relaxation. As its name suggests, the wooden surrounding area enhances its oriental style with the combination of strength and gentleness. Not only is there the sound of flowing water, even other powers of nature also reach you. ORIENTAL offers a full refreshed spirit, and healing of the body. Besides, it is spatial and easily adds beauty to any place.

LAKE

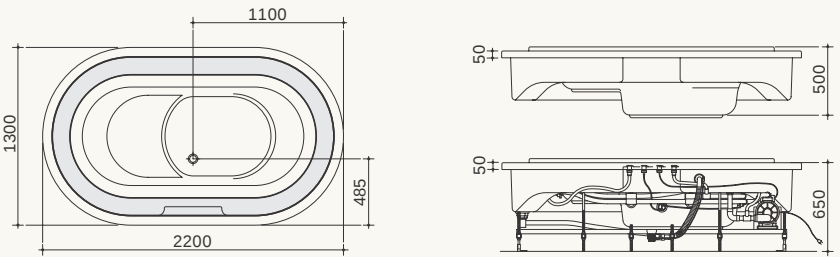

LAKE verbindet Schlichtheit und Schönheit mit dem Klangerlebnis fließenden Wassers.
LAKE passt zu allen Arten von Materialien, besonders Stein, Zement, Glas oder Aluminium. Der Klang des überlaufenden Wassers vermittelt ein Naturerlebnis.

LAKE brings the peaceful and the perfect solution of simplicity and beauty through its capsule overflow design.
LAKE also blends well to any kind of material, rock, cement, glass or aluminum. This feature helps in enhancing the the luxury of your bathroom.
The sound of overflowing water accentuates your relationship with nature.

Breite Width	1300	mm
Höhe Height	500	mm
Netto Gewicht Net Weight	150	kg
Wasservolumen Water Volume	370	Liter litres

WISH

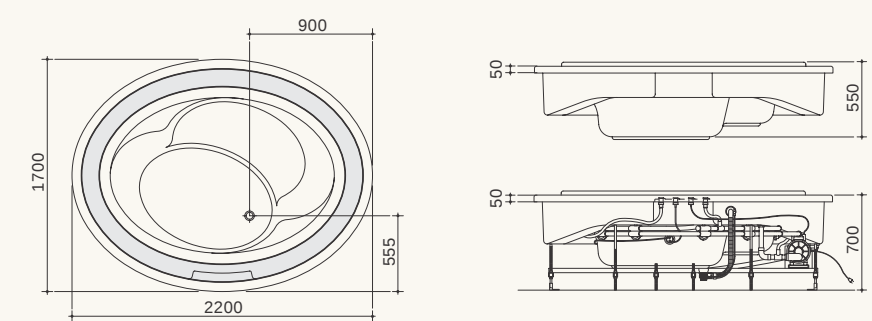

Die Faszination von WISH spiegelt sich wieder in ihren ruhigen Linien und der Gefälligkeit der eliptischen Form. WISH reflektiert einen Hauch von Luxus und Eleganz.

All the fascination of WISH is reflected in its soothingly regular outline and neat geometry of the oval shape that always reminds us of the European style. The futuristic design does not compromise the traditional European look. WISH is symbolic of extreme luxury and elegance.

WISH | Design: BKK KÄSCH

Länge Length	2200	mm

POND

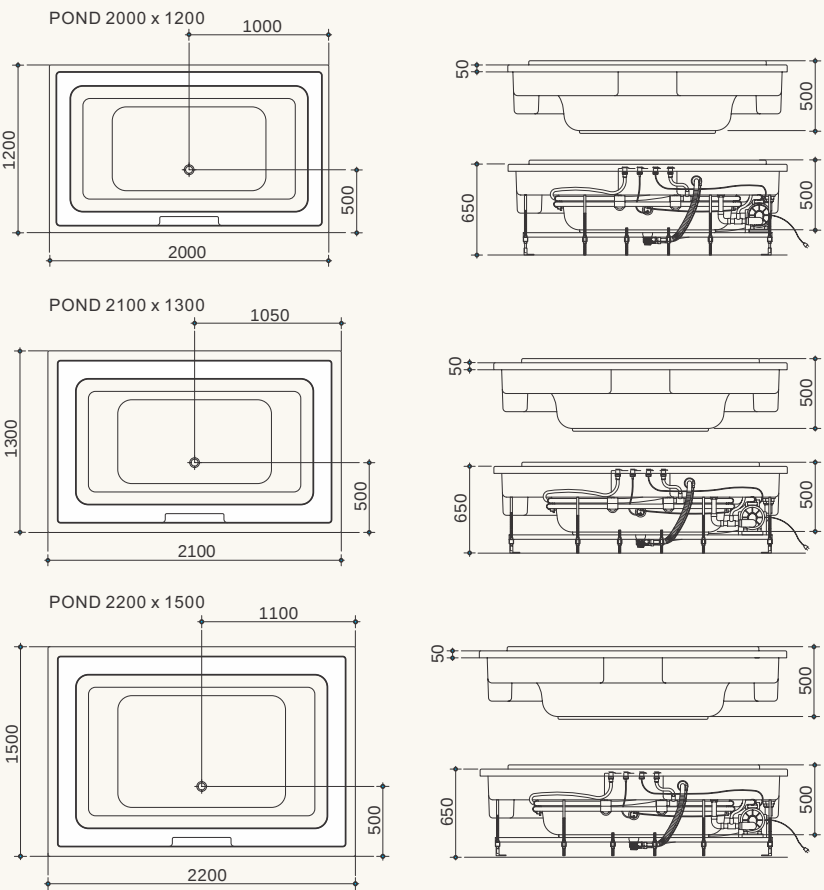

Wer klare, gerade Linien bevorzugt, wird sich von POND angezogen fühlen, besonders in Kombination mit Holz. POND erhalten Sie passend für Ihre Raumsituation in drei verschiedenen Größen.

The one who loves simplicity and nature will be attracted by POND, especially when it is built into the wooden counter top. Lean your body onto its soft polyurethane headrests and close your eyes. You will experience the ultimate in bathing and relaxation. Three sizes are available to match to any size of the bathroom.

CHI

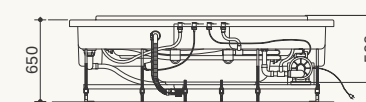

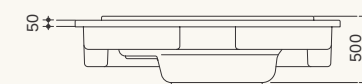

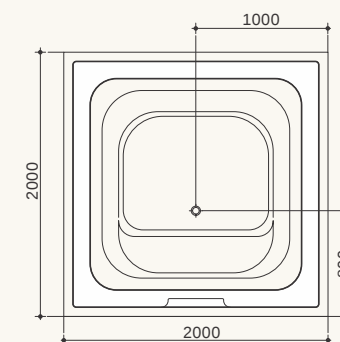

CHI bringt Eleganz in Ihr Badezimmer. Die abgerundeten Ecken machen das Quadrat gefällig und unverwechselbar. Das modische Design vermittelt Ihrem Badezimmer einen luxuriösen und trendigen Stil.

Why not enhance the elegance of your bathroom with CHI.
The design of four tapered corners cleverly strives to achieve distinction.
That stylish shape makes your bathroom more trendy and luxurious.
Significantly, being a square shape, it gives a roomy feel that helps in lending a romantic dimension to the ambience.

CHI | Design: BKK KÄSCH

FLOAT

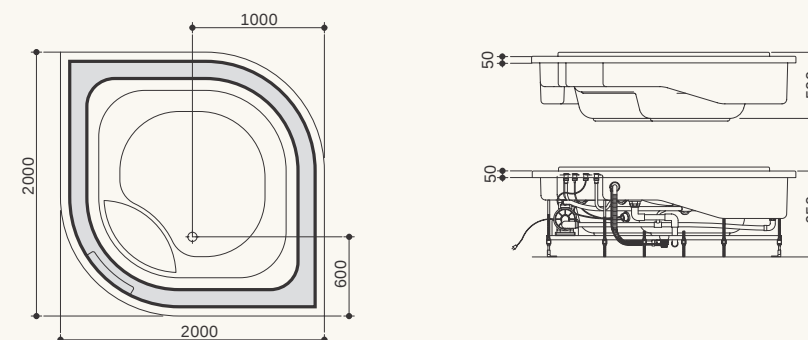

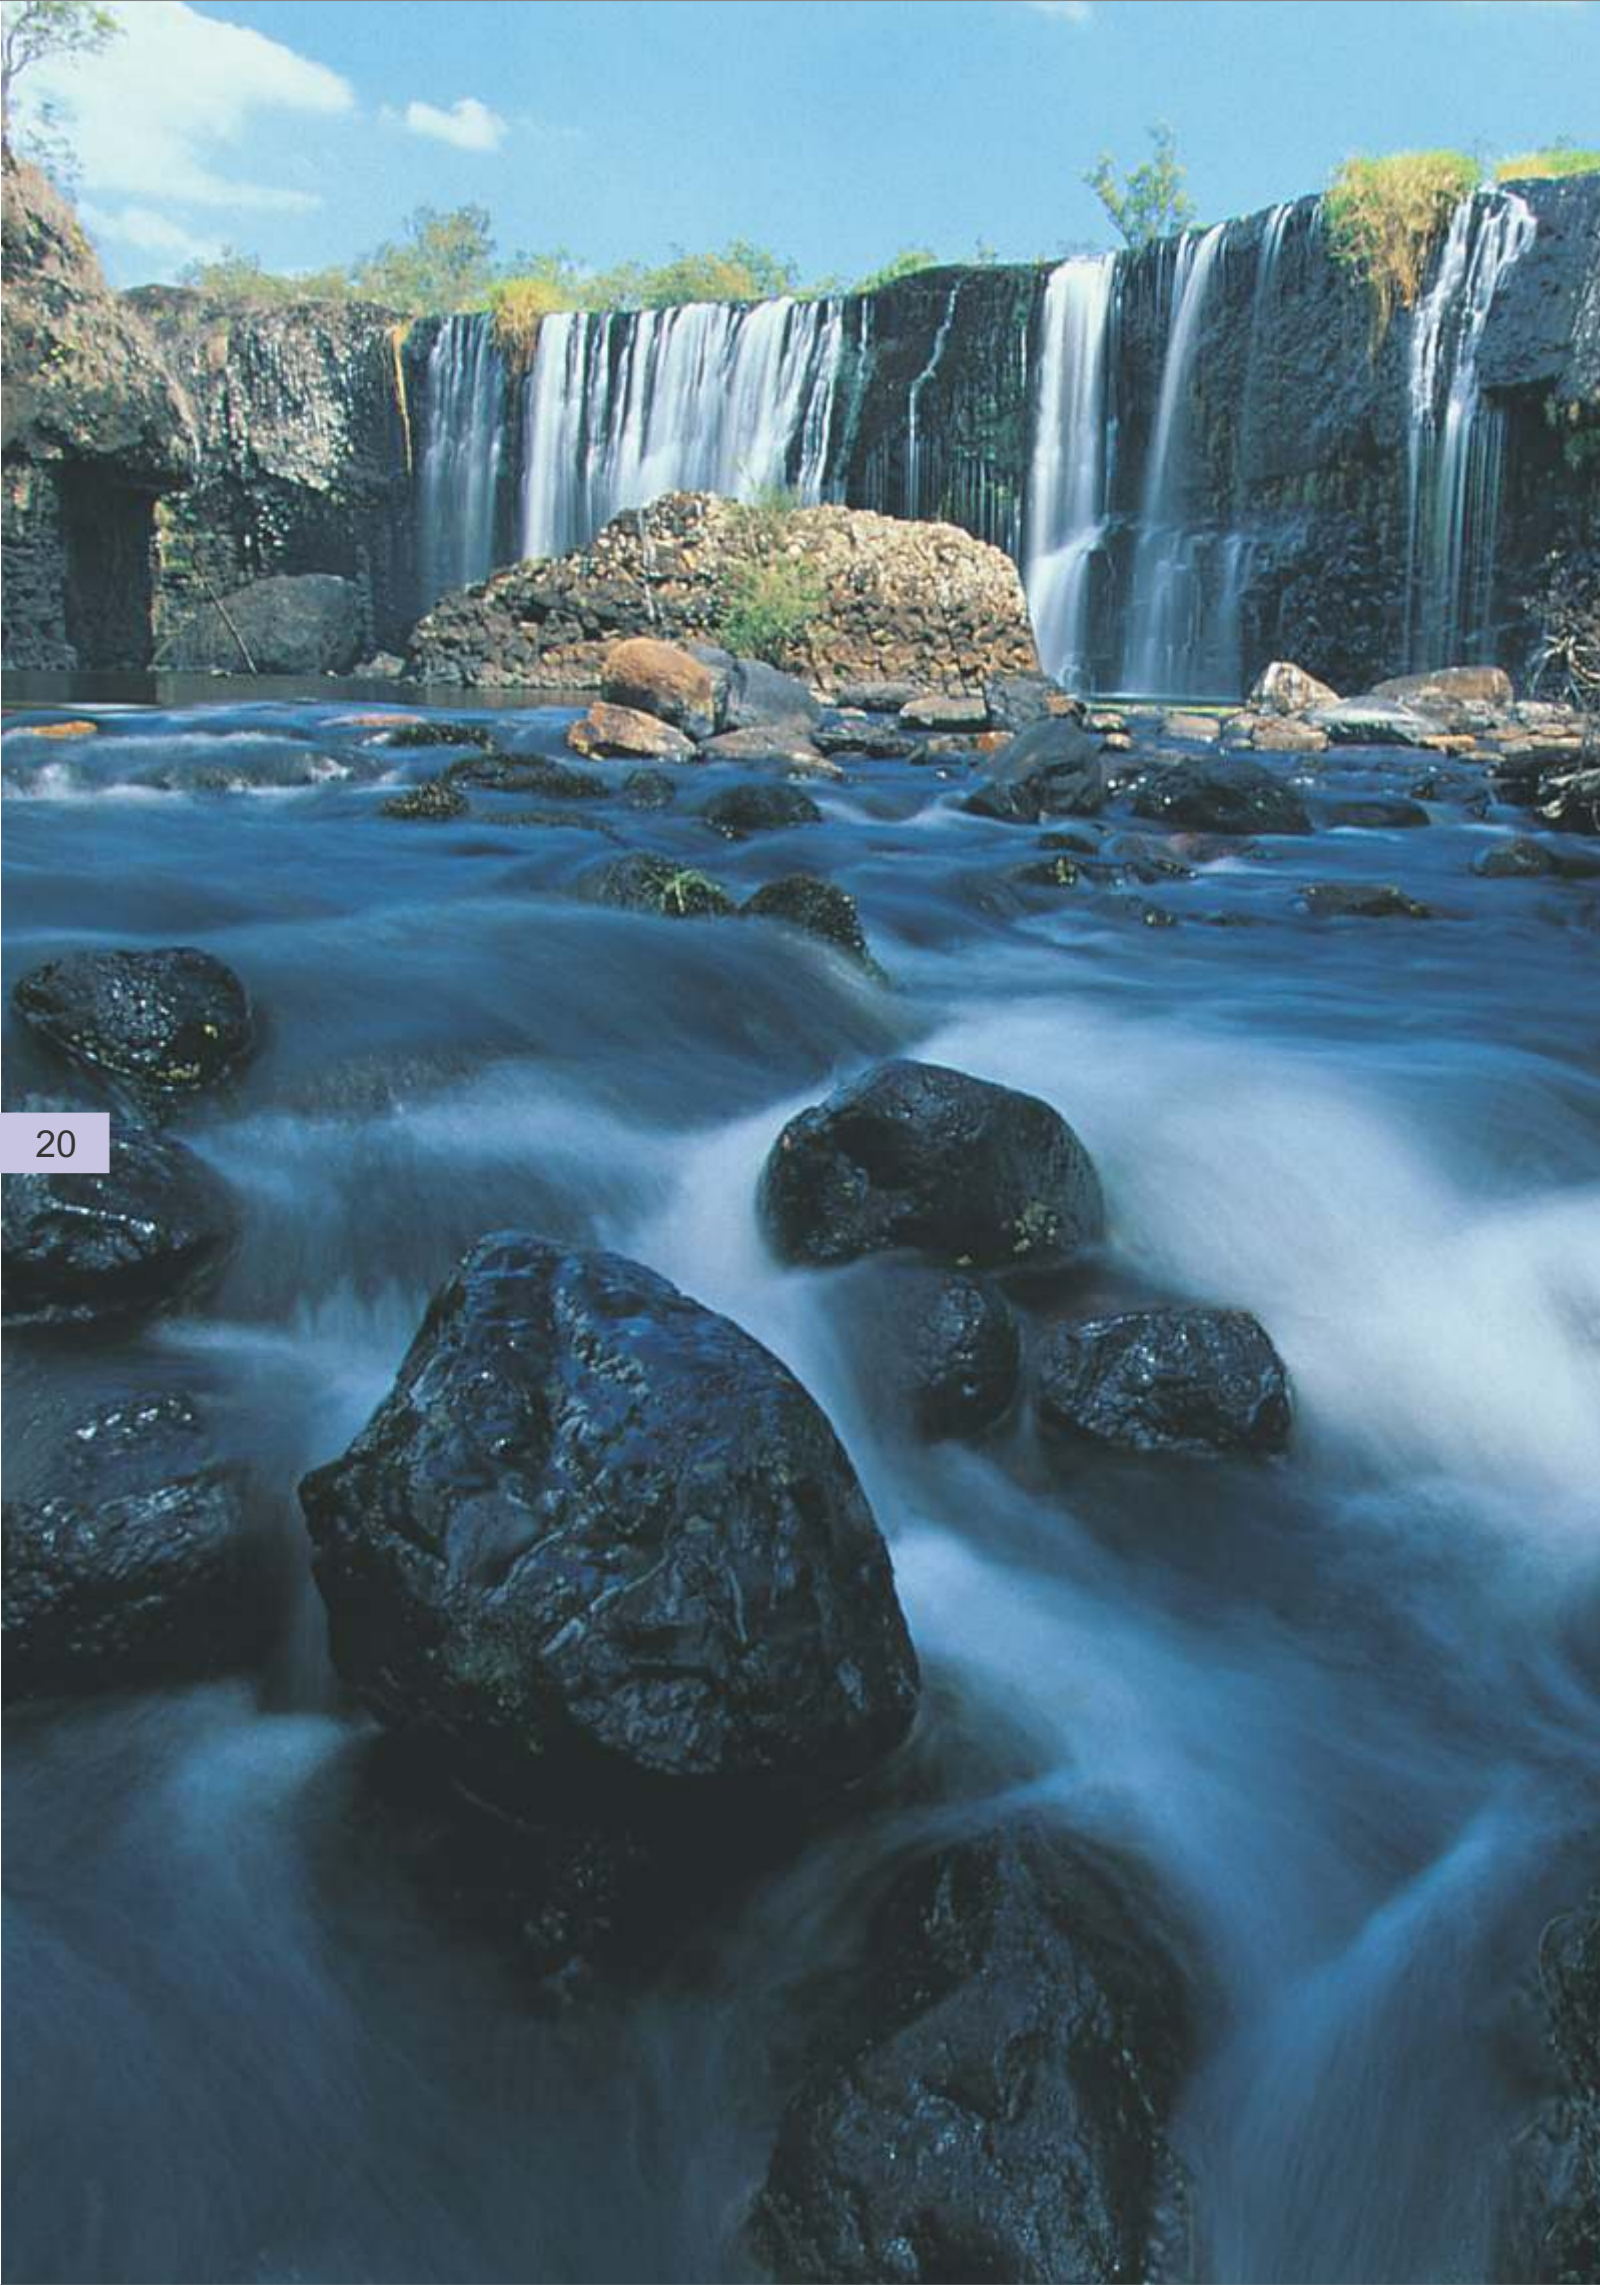

Das moderne Aussehen bildet einen spannenden Kontrast zwischen den zwei Rundungen und den zwei Ecken. FLOAT ist sehr geräumig und verkörpert ein zeitloses Design. Avantgardistisch und komfortabel zugleich bietet sie jeglichen Raum für ein vollendetes Badevergnügen.

With its modern look in a fascinating contrast of the two elegant curved lines setting against two angular sections, FLOAT not only makes itself roomy but also helps to embody a first ever-fashionable bathtub. FLOAT is rich in an avantgarde aspect and has a very stylish design. Offering the user a great pleasure from its luxury and futuristic looks, as well as a full body experience through its spatial area.

Wasservolumen Water Volume	780	Liter litres

Takiyu

Neben dem Bad in einer mineralischen Quelle hat das Bad in dem Teich eines Wasserfalls genannt TAKIYU, eine lange Tradition in Japan. Schon in der frühesten Geschichte Asiens waren Wasserfälle in verborgenen Gebirgsgegenden Pilgerstätten für individuelle Baderituale. Die TAKIYU Wannenkollektion wurde entwickelt, um dieses Naturerlebnis im eigenen Heim nach empfinden zu können. Die Philosophie beruht auf der Kombination des Wasserfalls mit der massierenden Wirkung der Luft - und Wasserdüsen ergänzt durch Farblicht. Eine Kombination zur Unterstützung der physischen und psychischen Regeneration. Unter einer Dekorabdeckung fließt in einem geschlossenen Kreislauf stetig Wasser hervor und fällt sanft in die Badewanne.

The Japanese have a long history of taking a bath in a hot spring and thereafter, also taking a bath under a waterfall called TAKIYU. In the history of Asia there are waterfalls hidden in secret mountain areas. These are places for serious cleaning ceremonies. Our TAKIYU bath-tub collection was created to feel this natural experience at home. This philosophy is the combination of the waterfall with the massage effect of the airspa and whirlpool jets supported by the latest in chromo-therapy – varied coloured underwater lights. This unique combination supports both physical and mental regeneration. The TAKIYU bath is filled by a continuous sheet of water flowing over the inner rim of the tub.

TAKIYU RT190

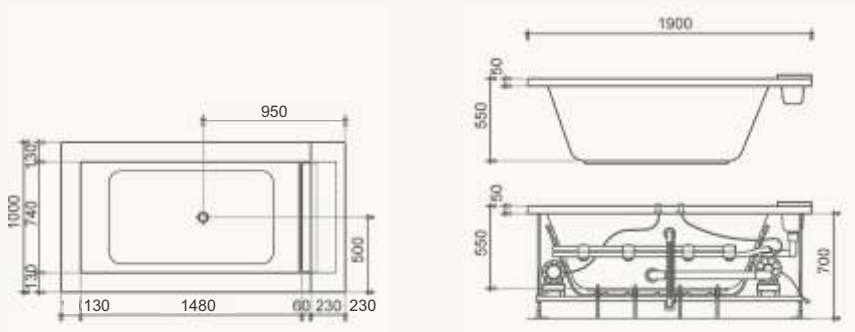

Lärm, Stress, ein hektischer Tag! Rhythmus und die sanfte Massage fließenden Wassers wird Ihnen die gewünschte Entspannung bringen. Die innere Ruhe kehrt zurück. Sie sind wohl gestimmt für die nächsten Stunden und regeneriert für den nächsten Tag. Diese Wannenmodell ist mit ihrem Wasserfall am Fußende als Solowanne konzipiert.

Soak yourself in this ingeniously-designed whirlpool that tickles away all your tensions and worries with powerful, yet gentle flows of water. This bathtub is designed as a single tub with a waterfall on the foot end part.

Takiyu RT190 | Design: Chat Kamioka | Japan

Länge Length	1900	mm
Breite Width	1000	mm
Höhe Height	550	mm
Netto Gewicht Net Weight	115	kg
Wasservolumen Water Volume	380	Liter litres

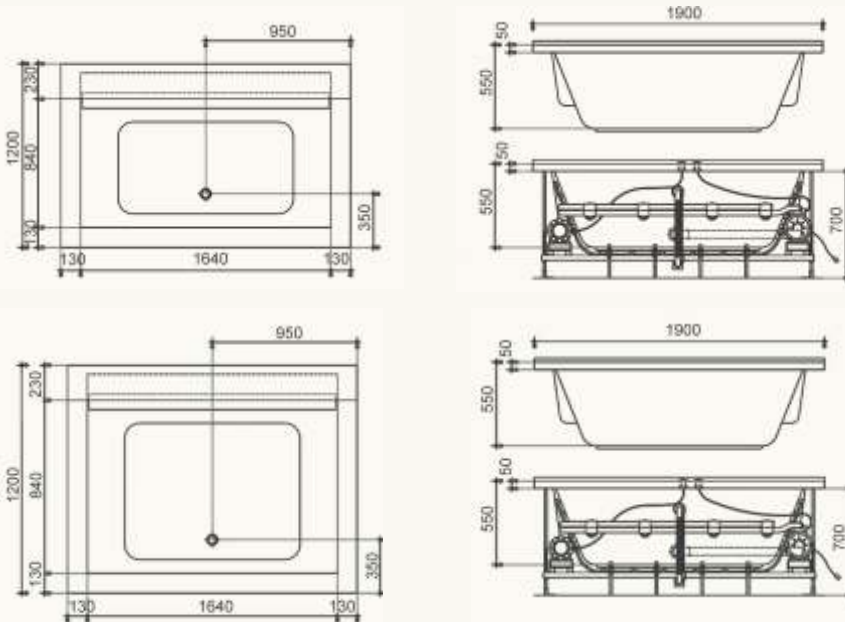

TAKIYU RT912/RT915

Zeitloses Design in Kombination mit einer neuartigen Methode der Wasser-massage. Das fallende Wasser entlang der Längsseite sorgt für eine stetige, sanfte Wasserbewegung. Konzipiert als Duowanne, ist die Größe der Wanne ebenso geeignet, auch einmal ein entspannendes Bad ganz für sich alleine zu genießen.

This rectangular whirlpool comes with a side waterfall and a water-therapy-system and is large enough to accommodate you and your loved one together, at the same time.

Netto Gewicht Net Weight	130	155	kg
Wasservolumen Water Volume	380	480	Liter litres

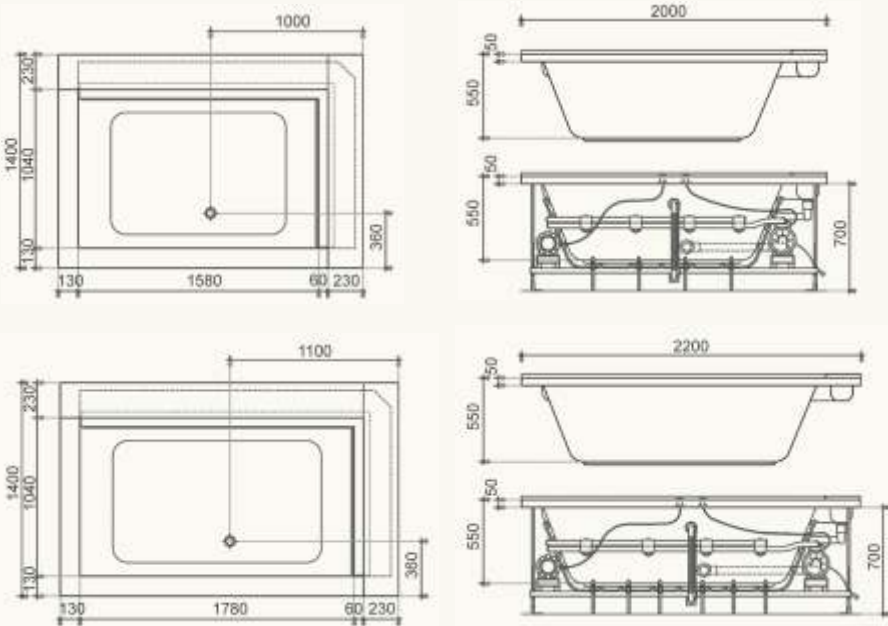

TAKIYU RT200 / RT220

Über Eck fließt das Wasser kontinuierlich unter der Dekorabdeckung hervor und fällt sanft in die Badewanne. Die Größe der Wanne ist besonders geeignet, um in dem verwirbelten Wasser nicht nur zu liegen, sondern sich auch zu bewegen.

Rejuvenation reaches new heights for both, body and soul, in an elegant, spacious rectangular bathtub designed to offer you a private world of stream relaxation.
The sound of a soothing waterfall cradles you from tip to toe in a truly peaceful bathing experience.

Design: Chat Kamioka Japan	Takiyu RT200	Takiyu RT200

Wasservolumen Water Volume	470	520	Liter litres

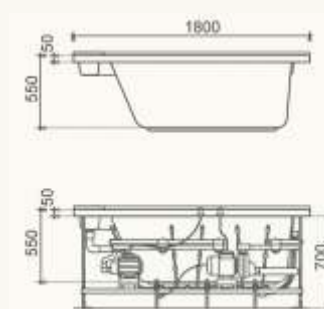

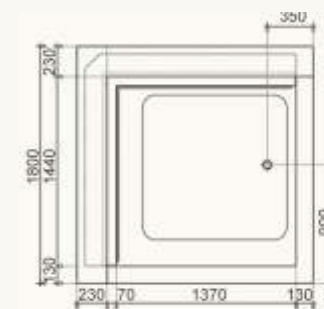

TAKIYU SQ180

Über zwei Seiten fließt das Wasser unter den Zierplatten hervor und fällt sanft in die Badewanne. Die quadratische Form ermöglicht zwei Badenden ganz entspannt und bequem das wohlige, fließende Wasser und die Massage zu genießen.

Enrich the quality time you and your loved one share every single day with this pool of unparalleled revitalization. Put your feet up and your head down and let soothing streams of water caress you. Or simply lie still and benefit from the therapeutic attributes of onzen-like hot water emerging from two waterfalls.

TAKIYU CS200

Die elegante, ovale Form bietet viel Freiheit für eine individuelle Gestaltung des Badezimmers. Die Mineralgussabdeckung des Wassereinflaßs paßt sich harmonisch der Wannenform an.

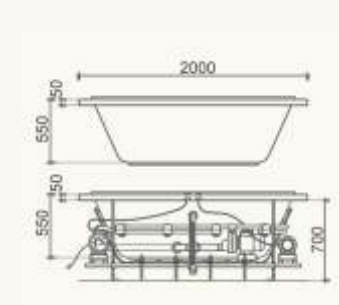

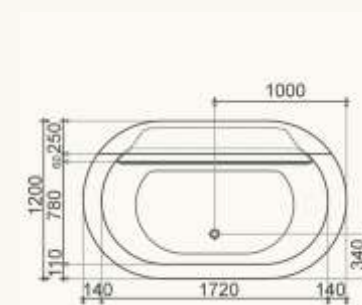

Das Badewasser rotiert über einen geschlossenen Kreislauf.

Designed to complement your modern lifestyle, this stylish oval bathtub enables you to luxuriate comfortably in the embrace of soothing waterflows. Sheer bliss indeed.

Takiyu CS200 | Design: Chat Kamioka | Japan

Länge Length	2000	mm
Breite Width	1200	mm
Höhe Height	550	mm
Netto Gewicht Net Weight	135	kg
Wasservolumen Water Volume	380	Liter litres

TAKIYU OV190

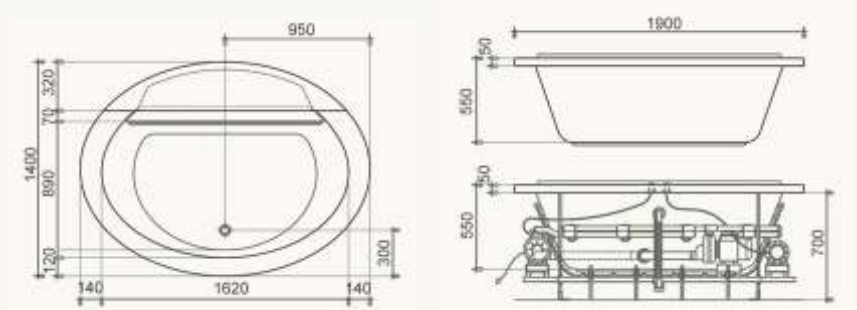

Eintauchen, das sanft massierende Wasser genießen und entspannen.
Die elliptische Form kommt der Form eines „Takiyu“ sehr nahe und gibt Ihrem Badezimmer einen unvergleichlichen Charakter.

As you indulge yourself in this full-feature elliptical bathtub, you are cradled by the calming sound of a waterfall pampering you from all directions.

Takiyu OV190 | Design: Chat Kamioka | Japan

Länge Length	1900	mm
Breite Width	1400	mm
Höhe Height	550	mm
Netto Gewicht Net Weight	145	kg
Wasservolumen Water Volume	380	Liter litres

TAKIYU RO170

Der traditionelle Japanische „Onzen“ hat die Formgebung inspiriert.

Die repräsentative runde Form und die Eleganz des Wasserfalls werden zum Highlight in Ihrem Badezimmer.

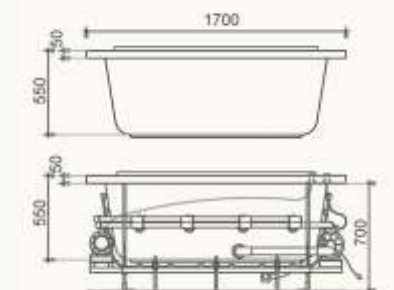

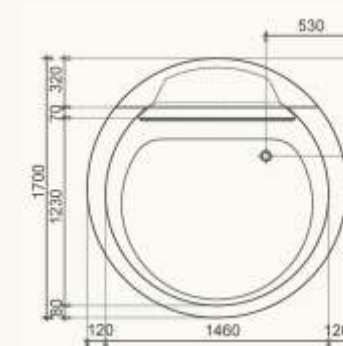

Die Farbe der harmonisch angepassten Mineralgussabdeckung bietet ein zusätzliches gestalterisches Element.

This round-shaped whirlpool is not only pleasing to the eyes but also immensely satisfying to all senses. The aesthetic curves enhance the therapeutic attributes of the flowing waters, leaving you fully invigorated long after the bath.

| Design: Chat Kamioka | Japan

Länge Length	1700	mm
Breite Width	1700	mm
Höhe Height	550	mm
Netto Gewicht Net Weight	150	kg
Wasservolumen Water Volume	490	Liter litres

TAKIYU CN160

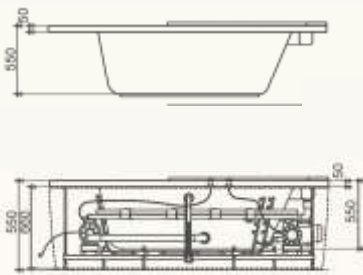

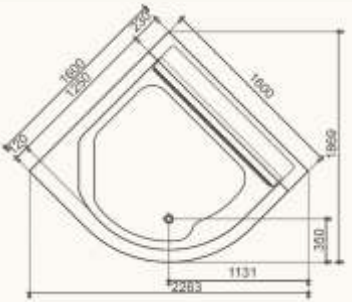

Als Einbau über Eck spart dieses Wannenmodell Platz und ermöglicht so den Badegenuss auch in weniger großen Badezimmern. Der Wasserfall befindet sich auf der rechten Wannenseite. Das Wannenmodell kann auf Wunsch mit einer separaten Schürze geliefert werden.

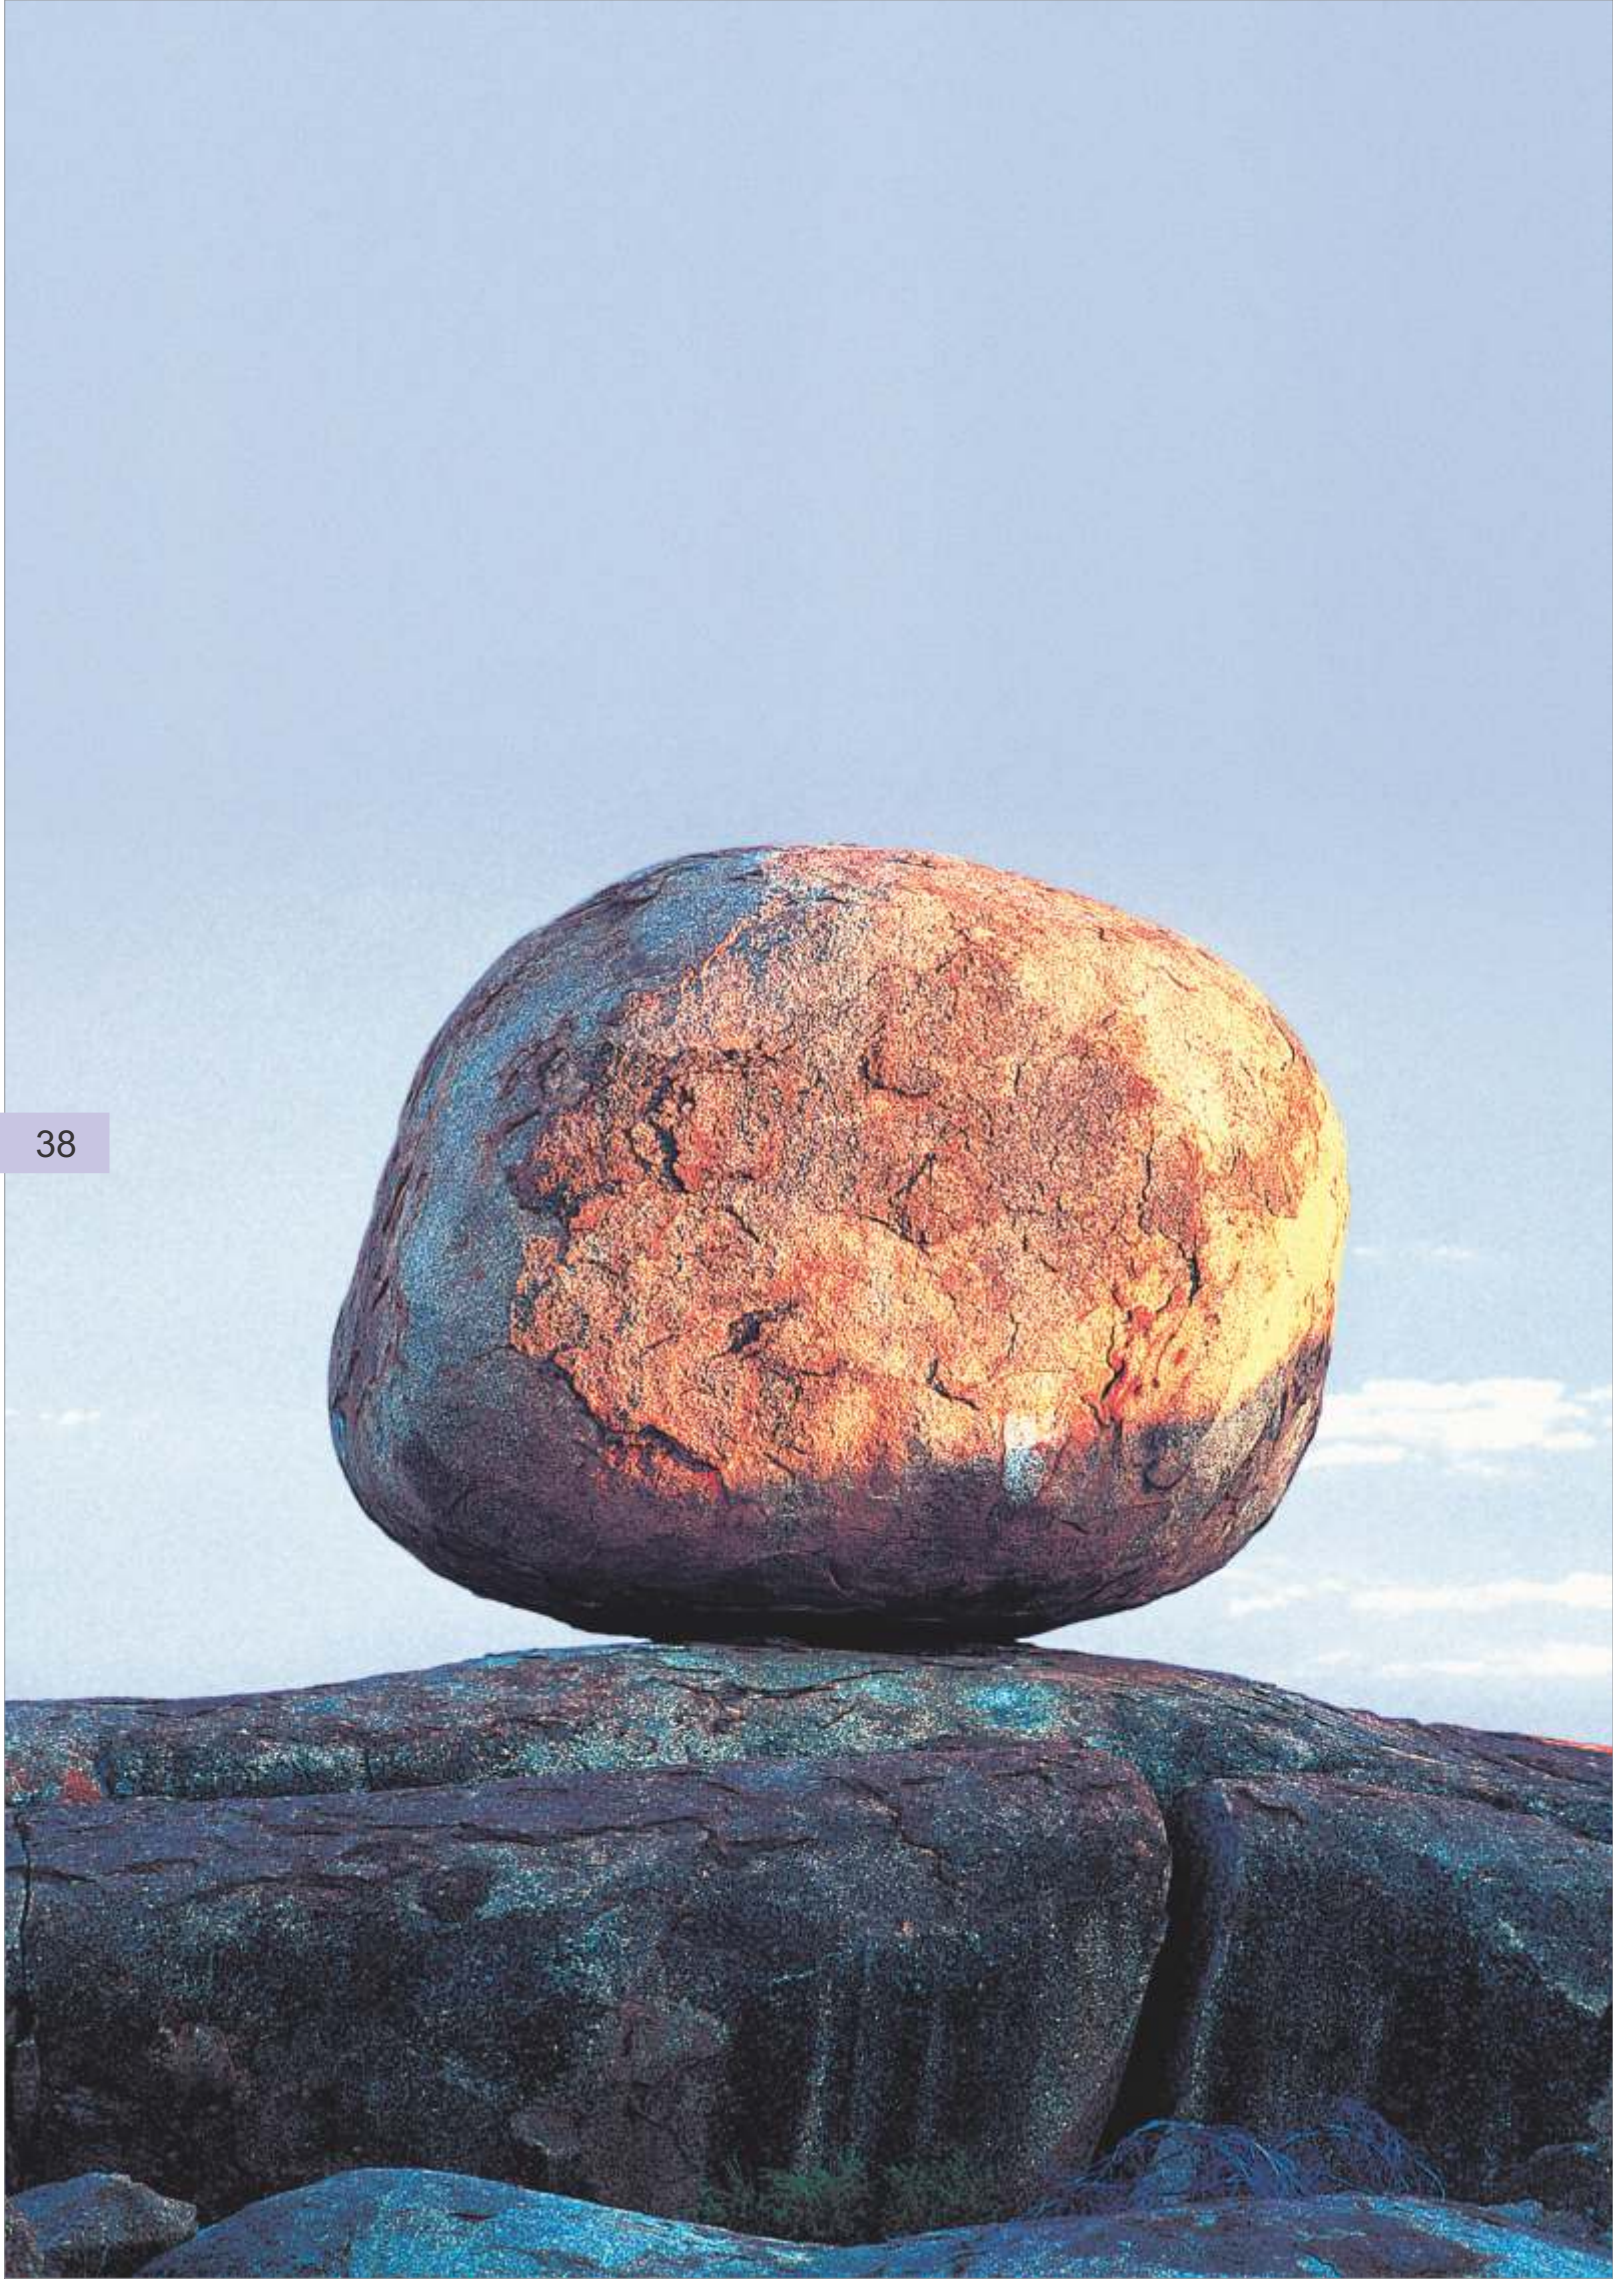

Cleverly designed to fit in any bathroom corner, this truly relaxing bathtub with a powerful massaging whirlpool is space-saving, yet still spacious enough for you and your loved one to luxuriate in. This model is also available with a sidepanel.

FREESTAND Collection

Die FREESTAND Wannen von Acquaviva wurden inspiriert von Steinskulpturen, die von Wind und Wasser über tausende von Jahren geformt wurden. Sie strahlen Harmonie und Solidität aus, vermitteln Wärme und Vertrauen. Frei im Raum stehend, schenken sie jedem Bad eine einzigartige Atmosphäre.

Natural sculpture is one of Acquaviva inspirations on bathtub design. Acquaviva FREESTAND bathtubs are inspired from a stone figure. Pleasant to the eyes and heartwarming, it has a natural shape. It adds to the ambiance and looks distinctive, made from a solid material.

CBABY-91046FS Size: 910x460x420 mm

INSET Collection

Thinking out of box always makes new trends and innovations. For KÄSCH, there is nothing impossible. KÄSCH Smooth Curve bathtub in the Aqua Collection is creatively originated. Contrasting forms can be harmoniously blended into one superb design. No more cut surface, it is curved at the edge instead. Then, the natural pond seems situated in that interior. To provide the utmost sitting comfort and safety, KÄSCH supports the users with the headrest properly positioned along ergonomic analysis.

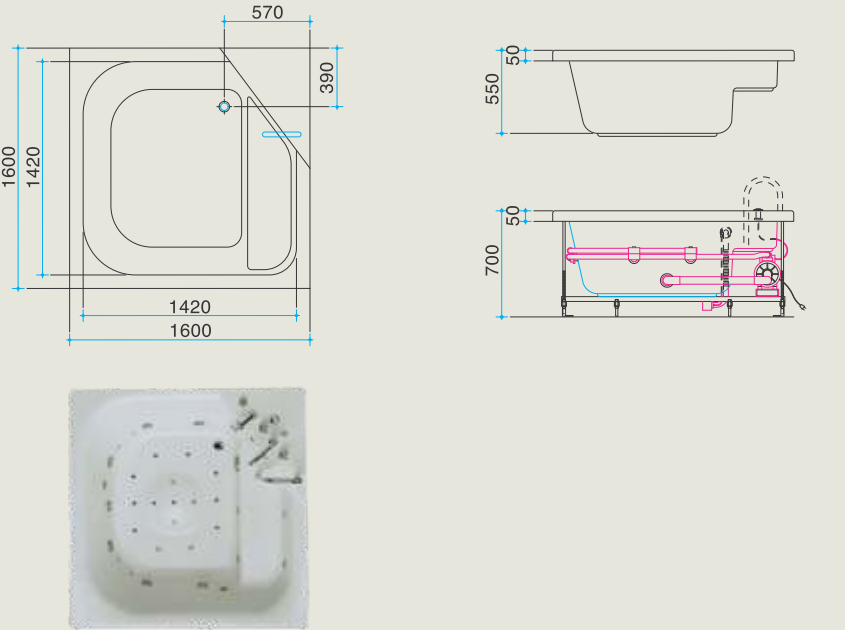

MILD The prestige of the exclusive design of MILD is intended to both help giving a paradise in your bathroom and to your love throughout its accommodating capacity of 2 people. Its rectangular with sloped back can give the user more relaxation, as well as give the outstanding appeal to delight to the bathroom. MILD displays the beauty in both styles, stand-alone in panel or corner.

Methods Of Therapy Combined With Our Technology

ACQUAVIVA brings you the vital art and science of an ideal bath and its ensuing results of total relaxation based on ancient wisdom.

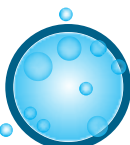

ACQUAVIVA combines 5 therapeutic principles with aesthetics to attain beauty and health.

HYDRO-THERAPY – is the core of our technology. Hydro-Therapy is the foundation of all lifestyle bathing products from ACQUAVIVA.

Based on a huge resource of scientific research, ACQUAVIVA has developed an advanced range of whirlpool & airpool systems, using a variety of air jets, whirlpool jets, micro jets and standard jets. These systems go a long way in reducing and relieving stress and other ailments like diabetes, hypertension and muscle weakness.

OZONE-THERAPY – A process that generates the ozone treated air into the water providing cleaner breath in water and an end result of overall feeling of well being and renewed energy. Absorbed pure air helps in correcting blood flow as also physical and mental balancing.

HYDRO-THERMAL-THERAPY – Our unique water-heating system makes the best use of the temperature of the water inside the tub at different levels for different treatments. It also helps in keeping the given temperature for a longer duration. Warm water will offer the most relaxation with a great sleep-tight result. Cold water will arouse circulation and the organic systems of the whole body. Hot water will relax muscles and reduce confusion in the mind.

AROMA-THERAPY is the science of necessary oils mixed together with aromatic substances produced by many plants. These oils can cure many illnesses and have natural ability to increase the human potential. Aromatherapy is an age-old science which is being revived for many healing properties. Each essential oil has its own quality & characteristics in treatment. Just drop the specific amount into the water and experience a fully revitalized body and mind.

CHROMO-THERAPY - is based on the charge of energy found in light waves. ACQUAVIVA applies these color lights to become a curing method as each of these spectrums has its own specific effects to the body through the skin and the retina.

LIFE TODAY CAN BE RICH WITH HEALTH AND BEAUTY

In these days of enhanced lives, luxury, beauty and health go hand in hand. At ACQUAVIVA we seek to meet these trends and bring you pioneering products which fulfill all aspirations of a modern life.

Technical Data

WHIRLPOOL TECHNICAL DATA

Every whirlpool is prepared with an optimised jet v/s pump - power configuration. The system has a built in dry-running safeguard and has a process of self-draining for safety and hygiene. The system also drains itself after using.

CLEANING AND DISINFECTION

ACQUAVIVA offers a complete range of cleaning and disinfection products.

ACTIVE CLEAN LIQUID

Liquid disinfection – Active Clean is simple and easy to use. After taking a bath pour active clean liquid in the used water, switch the whirlpool on and off, drain the water and then flush the bathtub. Active clean liquid is prepared without aldehyde or phenol additives.

ACTIVE CLEAN TABS

Tablet disinfection – It is done upon customer requirement as every whirlpool can be prepared with an automatic tablet disinfection system with fresh water flush. Before using the bath, put one tablet into the bathtub. After bathing, the tablet will automatically clean the system and fumigate the whole tub and whirlpool. Active Clean Tabs are also prepared without aldehyde and phenol additives.

ACTIVE CLEAN FOAM

Foam disinfection – With this, the general additional cleaning can be carried out as this foam is sprayed over the jets and suction inlet and is left for 30 minutes. After spraying the foam, fill up the bath with clear water and let the whirlpool work for several times. Drain the water from the tub. Active clean foam is also prepared without aldehyde and phenol additives.

WHIRLPOOL HEATING SYSTEM

For a never-ending bath experience, every ACQUAVIVA whirlpool can be prepared with the whirlpool heating system specifically designed for each size of bathtub. The system of course includes our safety dry-running and overheating protection system.

AIRSPA-SYSTEM

The AIRSPA-SYSTEM is prepared with double safety loop and check valves in the pipes and jets. The whisper-quiet blower heats up the air and adds ozone into the bath for an extra refreshing experience. After bathing, the AIRSPA-SYSTEM automatically dries itself with hot air.

AUTOMATIC DRYING SYSTEM

To dry the air nozzles from residual water and to avoid bacteria and off odours, our Spa Wellness Bathtubs are prepared with an automatic drying system. The automatic drying function switches on automatically 15 minutes after you vacate the bathtub and runs for about 2 minutes. This system may also be started manually with the help of the remote control.

***10 years warranty against Discoloration, Chipping, Crazing, Crashing.**

KÄSCH WHITE ION BATHTUB Innovation Technology

System gives way to revolutionary way of extolling benefits from
Through the modern technology that captures the element of beauty
in the nature comes the most Aesthetically pleasing natural phenomena
everytime you visit the bathroom.

TECH-NOLOGY

Features of modern technology that
creates distinctive bathing experience
(In A Single Switch-on)

100% SMALLER BUBBLES

Supply of micro nano bubbles
1000 times smaller than that of
the conventional pressurized ones

1 STEP SIMPLE-START

Getting your personal treatment start
in no time with only 1 simple switch-on

BUBBLES DENSELY PACKED

Being of much smaller-sized bubble
particle thus more densely populated
and packed within the given space

1/3 LESSER POWER CONSUMPTION

A take on greener bathing with
one-third less power consumption

80% SPACE SAVING

A save-space innovation design with
an average of 80% reduction in size

BENEFIT

RELAXATION & BODY TREATMENT

Micro bubbles generate ultrasonic
waves that will gently massage
the skin and muscles
Relaxation from the inside out

CLEAN & SMOOTH

Micro bubbles as deep-acting remover
gently penetrate into the pores
The skin once thoroughly cleansed
becomes smooth and radiates
a healthy glow

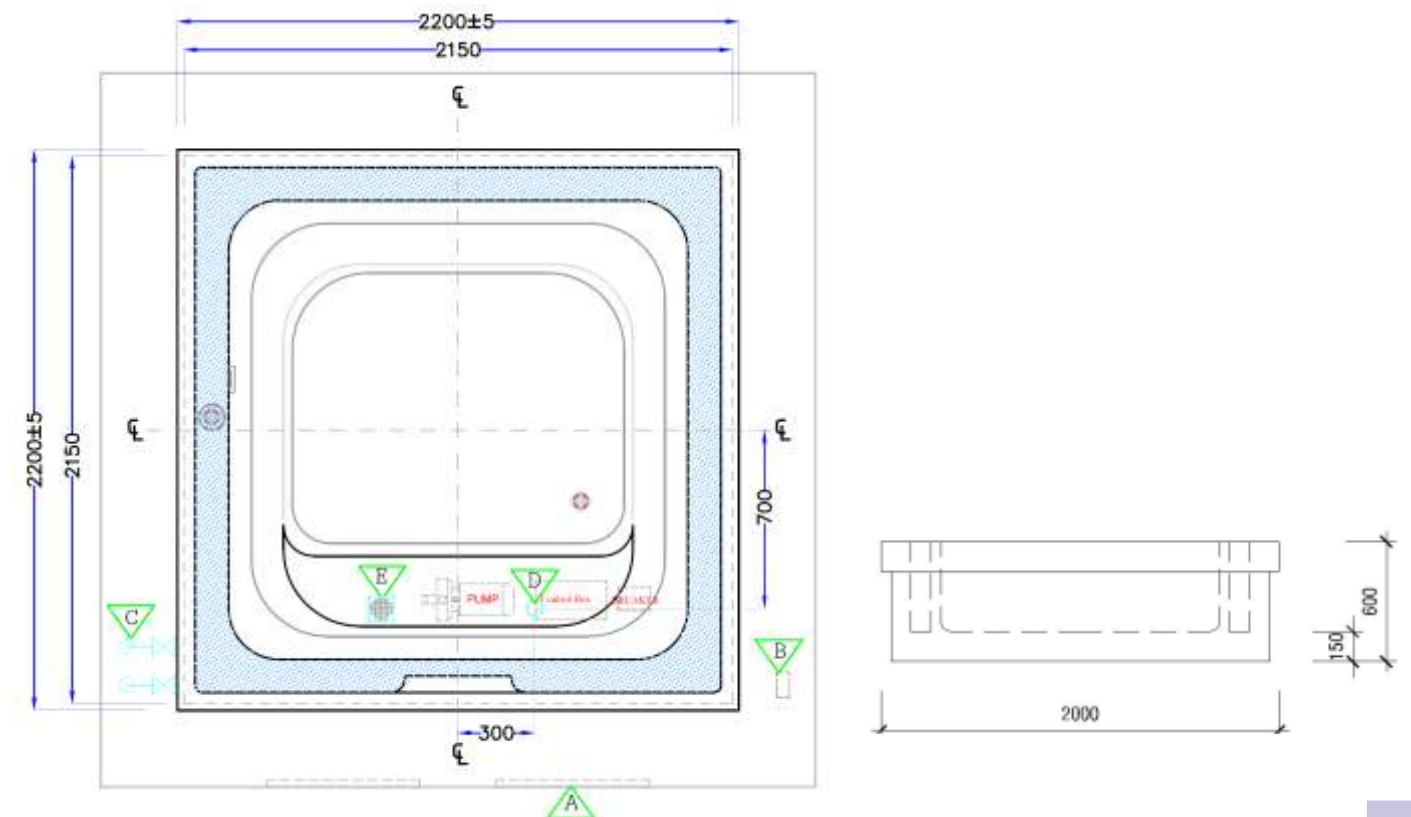

MOISTURE & SOFTNESS

Micro bubbles also give heat-preserving
effects, integral to skin treatments
Dissolved oxygen renders more
moisture and softness to the skin

THEARAPIEMETHODEN DIE SIE MIT UNSERER TECHNIK AN- WENDEN KÖNNEN

Für die perfekte Entspannung und zur Bereicherung Ihres Badeerlebnisses setzt KÄSCH bei seinen Wannen fortschrittliche und bewährte Technologie ein.
KÄSCH konzentriert sich dabei auf 5 wesentliche Anwendungsformen um den Badenden wahre Entspannung für Körper und Geist erleben zu lassen.

METHODS OF THERAPY COMBI- NED WITH OUR TECHNOLOGY

KÄSCH brings you the ultimate art and science of a perfect bath and its consequent results of total relaxation. Based on the time honoured knowledge and ancient wisdom.
Käsch combines 5 therapeutic principles with aesthetics to achieve beauty and health.

HYDRO-THERAPIE– Eine Therapieform, die gerne bei Muskelschwäche, verschiedenen Krankheiten und Dysbalancen eingesetzt wird. Aufgrund der professionell entwickelten Düsenteknik bewirkt der regulierbare Druck und die Wasserzirkulation einen positiven Effekt auf die Muskulatur, entspannt Körper und Geist und steigert das Wohlbefinden.

HYDRO-THERAPY – is the core of our technology. Hydro-Therapy is the mainstay of all lifestyle bathing products from KÄSCH.
Based on a large resource of a scientific research, KÄSCH has developed an advanced range of whirlpool & airpool systems. Fitted with a variety of air jets, whirlpool jets, micro jets and standard jets, these systems go a long way in relieving stress and other ailments like diabetes, hypertension and muscle weakness.

OZON-THERAPIE –Der mit dem Airpool kombinierte Ozongenerator reichert das Wasser mit Sauerstoff an. Die reinigende Wirkung auf Wasser und Luft hat positive Auswirkungen auf Entschlackung und Gesundheit. Durch die Aufnahme des Ozons über die Haut fühlt sich der Badende physisch und mental ausgeglichen und voller neuer Energie.

OZONE-THERAPY – Ozone bath tubs generate ozone treated air into the water, thus making it more pure & clean and providing cleaner breath in water. The end result is an overall feeling of well being and renewed energy. Absorbed pure air helps in correcting blood flow as also physical and mental balancing.

HYDROTHERMAL-THERAPIE –

Die Wirkung der Hydrothermal Anwendung basiert auf unterschiedlichen Wassertemperaturen:

Heißes Wasser (36–38 Grad Celsius) entspannt Muskulatur und Nervosität, warmes Wasser (29–36 Grad Celsius) fördert Entspannung und einen tiefen Schlaf und kühles Wasser (10–29 Grad Celsius) regt Durchblutung und Organtätigkeit an.

HYDROTHERMAL-THERAPY – our

unique water-heating-system optimizes the temperature of water inside the tub at different levels for different treatments. It also helps in maintaining the given temperature for a longer duration. Warm water will provide the most relaxation with a great sleep-tight result. Cold water will stimulate circulation and the organic systems of the whole body. Hot water will relax muscles and reduce confusion in mind.

ent levels for different treatments. It also helps in maintaining the given temperature for a longer duration. Warm water will provide the most relaxation with a great sleep-tight result. Cold water will stimulate circulation and the organic systems of the whole body. Hot water will relax muscles and reduce confusion in mind.

AROMA-THERAPIE – Die Aroma Therapie basiert auf dem Einsatz von ätherischen Ölen und wirkt sich in erster Linie positiv auf die Stimmung aus. Darüber hinaus hat aber jedes Öl auch seine spezifische Wirkung.

Geben Sie dem Badewasser ein paar Tropfen des gewünschten Öls bei und es wird über Haut und Atmungsorgane seine Wirkung entfalten. Aufgrund der Bewegung des Wassers wird die Wirkung der Öle intensiviert.

AROMA-THERAPY is the science of essential oils usage. Those essential oils are blends of aromatic substances produced by many plants. Essential oils are used to treat illnesses and develop the human potential. Aroma-Therapie is an age-old science that is again coming to the foreground for many curative properties of plant essences. Each kind of oil has its own quality, distinctive, in treatment. Just drop the specified amount into the water, then your bathing will be your paradise to fully rejuvenate your body and mind in the easiest way.

plants. Essential oils are used to treat illnesses and develop the human potential. Aroma-Therapie is an age-old science that is again coming to the foreground for many curative properties of plant essences. Each kind of oil has its own quality, distinctive, in treatment. Just drop the specified amount into the water, then your bathing will be your paradise to fully rejuvenate your body and mind in the easiest way.

CHROMO-THERAPIE – LICHT BELEBT IHR LEBEN

CHROMO-THERAPIE – Die Chromo-Therapie unterstützt die mentale und physische Entspannung und Balance.

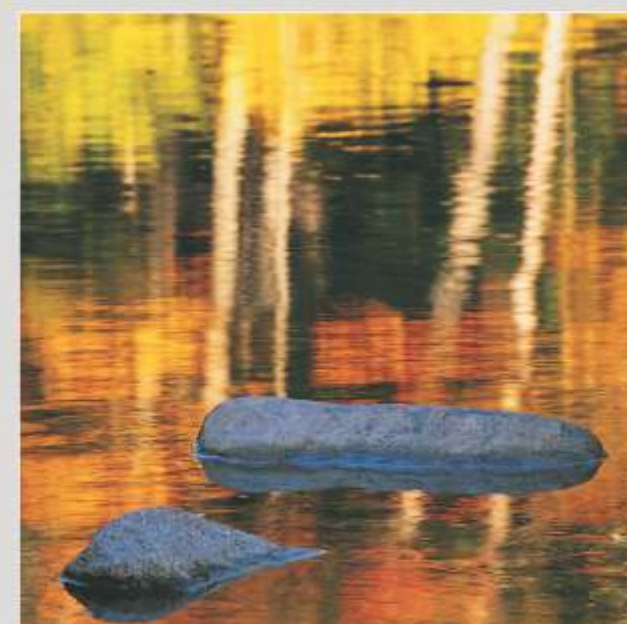

Dafür werden die Badewannen mit High-Tech-LED Lampen ausgestattet, die das gesamte Farbspektrum abdecken und aus dem der Nutzer die gewünschte Farbe auswählen kann. Jede Farbe hat ihr eigenes Spektrum und seine spezielle Wirkungsweise.

CHROMO-THERAPY – LIGHT STIMULATES YOUR LIVE

CHROMO-THERAPY is the latest presentation to release the charge of energy found in light waves. Colours are the spectrum of

visible light. KÄSCH applies these colours to become a curing method. Each spectrum has its own specific qualification to bring positive effects to the body through skin and the retina. Different colours bring different forms of wellness to the user.

LEBENSGEFÜHL – SCHÖNHEIT-GESUNDHEIT- WOHLERGEHEN

Wellness ist ein wichtiger Bestandteil des heutigen Lebensgefühls – Schönheit, Gesundheit, Wohlergehen beflügeln den Erfolg.

Die 5 Sinne als Grundaspekt, nach denen unsere Wannen entworfen werden, um unseren Kunden Baden zu einem großen Erlebnis werden zu lassen. Sicherheit und Bequemlichkeit bei jeder Bewegung.

Das Innere einer Badewanne wird unter ergonomischen und anatomischen Erkenntnissen entwickelt, um größtmögliche Bequemlichkeit und Sicherheit zu gewährleisten. Das bequeme Ein- und Aussteigen ist eine unserer Philosophien bei allen Wannen. Jeder Teil der Ausformungen und Konturen ist bedacht, um ein angenehmes Badegefühl bei großzügigem Innenraum und kompakten Außenmaßen zu ermöglichen.

LIFE TODAY CAN BE RICH WITH HEALTH AND BEAUTY

In these days of enriched lives, luxury, beauty and health go hand in hand. At KÄSCH we aspire to meet these trends and bring you innovative products which fulfill all aspirations of a modern life.

The five human senses form the basis of creativity at KÄSCH. The bathtubs in a large range of designs, shapes and finishes are all aligned to meet the varying aspirations of men and women.

Scientifically formed and evenly contoured bathtubs are tested for ergonomic correctness, safety and total comfort. Designed for safe and convenient entry & exit as well as the stay inside the tub. KÄSCH products offer a holistic experience at every stage of bathing, in all positions.

MATERIAL UND OBERFLÄCHEN

Die KÄSCH Wannen und Whirlpools werden aus mindestens 5 mm starkem, gegossenem Sanitäracryl namhafter Produzenten hergestellt. Die wärmedämmende, strapazierfähige Polyester-Glasfaserverstärkung und die vollflächig integrierte Bodenplatte garantieren eine maximale Stabilität und Formbeständigkeit.

Die FREESTAND Wannen sind doppelwandig aus Sanitäracryl gefertigt und werden zusätzlich mit Mineralgussmaterial gefüllt. Sanitäracryl ist angenehm warm und leicht zu pflegen.

Die porenfreie Oberfläche lässt Wasser abperlen und ist schmutzabweisend.

MATERIAL AND SURFACE

All KÄSCH bathtubs are made of a minimum 5 mm cast acrylic from international manufacturers. They are further strengthened with reinforced plastic and a solid acrylic bottom sheet.

The freestanding bathtubs are made of double shell sanitary acrylic with solid surface filler. Sanitary grade acrylic is always warm to touch and is easy to keep clean.

TECHNISCHE MERKMALE

WHIRLPOOL TECHNIK

Jeder Whirlpool wird je nach Wannengröße und Form mit der für eine optimale Whirltätigkeit angebrachten Anzahl an Düsen und der dazu gehörigen Pumpenleistung ausgestattet.

Die Pumpen verfügen über einen integrierten Trockenlaufschutz. Das komplette System entleert sich nach der Benutzung automatisch.

WHIRLPOOL HYGIENE

KÄSCH bietet die Möglichkeit individuellen Hygienevorstellungen gerecht zu werden.

ACTIVE CLEAN LIQUID

Flüssigdesinfektion – Nach dem Baden wird in eine Dosiereinheit ACTIVE CLEAN LIQUID in

TECHNICAL DATA

WHIRLPOOL TECHNICAL DATA

Every whirlpool is equipped with the optimum of jets and the corresponding maximum suitable pump power. The system comes with integrated dry-running protection and self-draining for safety and hygiene. The system drains itself after using.

CLEANING AND DISINFECTION

KÄSCH offers a whole range of cleaning and disinfection products.

ACTIVE CLEAN LIQUID

Liquid disinfection – Active Clean is easy to use. After taking a bath, pour ACTIVE CLEAN LIQUID

das Badewasser beigefügt und der Whirlpool für einige Minuten in Betrieb genommen. Nach dem Ablassen des Wassers sollte die Wanne mit klarem Wasser ausgespült werden. ACTIVE CLEAN LIQUID ist aldehyd- und phenolfrei und rückstandslos biologisch abbaubar.

ACTIVE CLEAN TAB

Tablettendesinfektion – Auf Kundenwunsch kann jeder KÄSCH Whirlpool mit einer automatischen Tabletten-Desinfektionsanlage und Frischwasserspülung ausgestattet werden. Vor dem Bad wird der Tablettenbehälter im Wannenrand mit einer Desinfektionstablette befüllt. Nach dem Baden desinfiziert und spült die Anlage automatisch das Rohrsystem. ACTIVE CLEAN TABS sind aldehyd- und phenolfrei und rückstandslos biologisch abbaubar.

ACTIVE CLEAN SCHAUM

Schaumdesinfektion – Wenn man das Bedürfnis nach einer besonders intensiven oder zusätzlichen Desinfektion hat, kann dies mit dem ACTIVE CLEAN SCHAUM durchgeführt werden. Über die Düsen wird der Schaum in das Rohrsystem eingeführt. Nach 30 Minuten Einwirkzeit wird die Wanne mit klarem Wasser befüllt und das System vor dem Entleeren, mehrfach ein- und ausgeschaltet. ACTIVE CLEAN SCHAUM ist aldehyd- und phenolfrei und rückstandslos biologisch abbaubar.

WHIRLPOOL HEIZUNG

Für ein unendliches Badevergnügen, ohne warmes Wasser nachlaufen zu lassen, bietet KÄSCH auf Kundenwunsch die Ausstattung mit einer auf die Wannengröße abgestimmten Heizung. Serienmäßig mit Überhitzungs- und Trockenlaufschutz.

in the water, switch the whirlpool on and off, drain the water and then flush the bathtub.

ACTIVE CLEAN LIQUID is formulated without aldehyde or phenol additives.

ACTIVE CLEAN TABS

Tablet disinfection – Upon Customer specification, every KÄSCH whirlpool can be equipped with an automatic tablet disinfection system with fresh water flush. Before using the bath, put one tablet into the designated container. After bathing, the system will automatically clean and disinfect the whole tub and whirlpool. ACTIVE CLEAN TABS are also formulated without aldehyde and phenol additives.

ACTIVE CLEAN FOAM

Foam disinfection – General additional cleaning can be carried out with ACTIVE CLEAN FOAM. The foam is sprayed over the jets and suction inlet and is left for 30 minutes. Then fill up the bath with clear water and let the whirlpool work several times. Finally drain the water from the tub. ACTIVE CLEAN FOAM is also without aldehyde and phenol additives.

WHIRLPOOL HEATING SYSTEM

For a never-ending bath experience, every KÄSCH whirlpool can be equipped with our whirlpool heating system specifically designed for each size of bathtub. The system of course includes our safety dry-running and overheating protection system.

AIRPOOL-TECHNIK

Die AIRPOOL TECHNIK ist ausgestattet mit einem Sicherheits-Doppelluftbügel und zusätzlichen Rückschlagventilen in den Bodendüsen und den Luftleitungen. Das geräuschreduzierte Gebläse heizt die Luft vor und mischt Ozon bei. Nach der Benutzung des Airpools werden Rohrsystem und Düsen automatisch trocken geblasen.

LED-FARBLICHTSCHEINWERFER

Die KÄSCH OVERFLOW und TAKIYU Kollektionen werden auf Kundenwunsch mit Power-LED-Leuchten ausgestattet. Die LED-Leuchten sind extrem flach, wechseln durchlaufend die Farbe und können über die Poolsteuerung bei der bevorzugten Farbe angehalten werden.

BEDIENUNG

Die speziell von KÄSCH entwickelte Steuerung bietet ein Maximum an Sicherheit und Komfort. Eine LED-Kontrollanzeige zeigt ihnen die jeweils aktive Funktion an. Die Whirlpools der Takiyu Serie können bei Vollausrüstung auf Wunsch mit einer SENSOR-TASTATUR ausgestattet werden, die in die Wanne völlig integriert ist und nur über leichte Berührung der Schaltflächen auf dem Wannenrand die Funktionen steuert. Selbstverständlich ist für sämtliche Whirlpool Modelle auch eine Fernbedienung erhältlich.

AIRSPA-SYSTEM

The AIRSPA-SYSTEM is equipped with double safety loop and check valves in the pipes and jets. The whisper-quiet blower heats up the air and adds ozone into the bath for an extra refreshing experience. After bathing the AIRSPA-SYSTEM automatically dries itself with hot air.

LED COLOURED LIGHTS

The KÄSCH OVERFLOW and TAKIYU collections can be equipped with our CHROMO-THERAPY LED coloured lights system. The very small designer LED lights rotate through all the colours and can be stopped in any colour to create the ultimate mood sensation.

OPERATION

The exclusive KÄSCH TOUCH CONTROL PANEL creates the safest and most comfortable to use system available. Bright LED lights show the working functions as required. All the TAKIYU models can be ordered with the SENSOR CONTROL PANEL. This control panel is integrated into the acrylic surface and works without any visible switches. A remote control is available for all whirlpool models.
