aquaplust

Soak in  
Luxury & Luminance

CUSTOMER GUIDE - 2017

style...  
sophistication...  
versatility

Inspired by the sheer simplicity of nature and motivated by the ever-evolving technology, Aquaplug resonates magnificence. Surpassing imagination, Aquaplug products are exemplary and blend innovation, design & performance all in one. Bringing together a fusion of safety and comfort with style and beauty, Aquaplug offers products that are stylish, versatile & practical.

Aquaplug places a strong focus on form and functionality. With its offerings, Aquaplug has already made inroads into some of the most demanding markets of the world.

---

## a step towards conserving nature

Each of our creation is etched out of one single principle, conservation of water, a key resource in working towards a Greener Planet. Be it our Taps or Faucets each is designed and crafted to ensure optimal use of resources and conserve them each time when used.

## aesthetics that set us apart

### Longlife

All products undergo stringent manufacturing processes assuring high durability.

### Automatic Wash System

Aquaplus electronic faucets have an auto on/off system, which helps in conserving water and maintain hygiene.

### Eco-Friendly

Efficient and eco-friendly shower heads that conserve water and therefore, contribute towards a better environment.

### Uniflow

For a uniform flow of water, Faucets are built with aerated flow technology.

### Softmove

Modern cartridges for a smooth movement of single lever Faucets.

### Germfree

Our bathware products are designed with Silver Nano technology which offers unique anti- bacterial properties, thereby ensure complete protection and hygiene.

# A Timeless Timeline

**1958**

## Trading

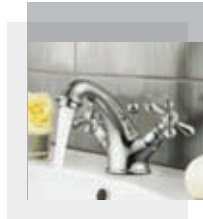

Aquaplus was built on the platform of highest quality standards, aesthetics and with an intent of providing world class products.

**1982**

## Quarter turn mixers

Introduced Quarter Turn Faucet –a major innovation of the age.

**1986**

## Cast Acrylic inset Bathtubs

Designed classy & elegant bathtubs to overcome problems faced with fiber glass tubs.

**1989**

## Heated Towel Rails

Adding convenience & luxury, Aquaplus brought heated towel rails – to keep you warm in the lap of luxury.

**1974**

## Inception of Work

The very first production facility incepted with a vision to transform the entire Indian plumbing system.

**1983**

## Single Lever Shower mixer

Presented the first "Made in India" single lever mixers. A real Revolution!

**1987**

## Whirlpool and Spa in Cast Acrylic tub

The ultimate innovation offering relaxation with luxury.

**1992**

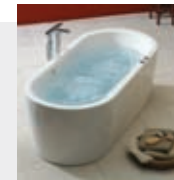

## Free Standing Tubs

Aquaplus presented free standing tubs that exemplified stylishness along with giving people reason to indulge in complete sophistication.

**1996**

## Free Standing Tubs with Whirlpool

Giving people an excuse to splash into the world of extravagance. Aquaplus introduced free standing tubs with whirlpools.

**2004**

## Thermostatic Mixers

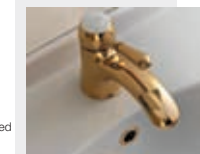

Bestowing safety & convenience together, thermostatic mixers were added for an easy temperature control for a relaxed bathing experience.

**2012**

## PVD Plating Faucets

Blending innovation with design, Aquaplus revolutionized bathware by introducing physical vapor deposition (PVD) plating in faucets with quality detailing.

**2016**

## S/L with 3 Outlet System

Giving people more reason for indulgence, Aquaplus brought single lever with 3 outlet systems.

**2000**  
**CASCADE  
FLOW MIXERS**

To give its customers a safe and convenient temperature control, Aquaplus added thermostatic mixers to its luxurious inventory.

**2007**  
**LED Indicators  
Basin Mixers**

Expressing class in every detail, LED indicator basin mixers were designed with built-in sensors that detected temperature of water. The lights were hydro-powered by the water flowing through the tap.

**2014**  
**Thermostat mixer  
with three outlet**

Minimalistic yet feature packed to offer the maximum to our esteemed client.

**2017**  
**Unique Thermostat  
Lock technology in  
single lever mixers**

Bringing quality & novelty at the forefront, Aquaplus introduced unique thermostat lock cartridge in single lever technology in collaboration with French company.

# Colonial

Inspired by a sip of Earl Grey, designed to capture an era

Inspired by the mellow arches and the tandem swivelling of Colonial Architecture, these Colonial Faucet designs from Aquaplus are reminiscent of the golden years of innovation, fervour and design. The Faucets capture distinct characteristics and pedigree that is still the base for most modern designs.

## Aqua Standard

Inspired by modernism,  
designed for the young at heart

Modernism has given us the music we hear today, the magnificent buildings that surround us and modern design as we know it, so why leave bathrooms behind? The Aqua Standard Faucet series from Aquaplast and its design defines a generation of progressive thinkers and dreamers with the smooth cuts that represent focus and commitment.

**Classic**

Inspired by the old,  
designed for the connoisseur

Classic is an understatement for the design that awaits you. The Classic Faucet series from Aquaplug makes no mistake with its identity, designed for the seekers of all things niche. The Classic series employs the best in Victorian-Era design coupled with the very best of water conserving modern technologies.

## Project Series

Inspired by ideas,  
designed for the niche

It's good to experiment from time to time because experimentation opens new doors to realms unknown. The Project Series Faucet from Aquaplug was born from the sheer will to create and redesign. In addition to that, water conservation technologies add the icing on the cake.

## Aqua Cross

Inspired by fusion,  
designed for the creative

Fusing elements together to create something new has been done before, but never has it been done with Faucets. The Aqua Cross Faucet series from Aquaplast is a rendition of a vision to infuse the old with new; a pursuit that resulted in the creation of something extraordinary for your bathroom's adornment.

Inspired by Zen teachings, designed for seekers of tranquillity

Zen wisdom has transcended history, time and place but still manages to have a deep impact on individuals around the world so why not incorporate that into our designs? The Zen-F Faucet series from Aquaplust receives its clean cut design element from the teachings of Zen masters through history, bringing tranquillity and peace to your mornings.

Spout

Inspired by the unnoticed,  
designed for explorers  
of the hidden

All rules of the game, all normative ideologies  
were created to be questioned at some point.  
The Spout Faucet series from Aquaplust bends all  
rules when it comes to traditional design  
concepts and brings to you elegance like you've  
never seen before.

#### HOW TO LOOK AFTER YOUR FITTINGS

Proper care and maintenance will ensure that the product chosen by you gives you years and years of trouble free service. Clean your faucets only with water or very mild detergent. Wipe clean and polish with a soft clean cloth. Never use acids, strong chemicals, metal polishes or any detergent containing ammonia to clean the faucets.

Special colour and Gold plated parts are protected with a lacquer coating may deteriorate over a period of time due to mishandling, exposure to atmospheric conditions, extreme climate, pollution in the air, salts and minerals present in the water, exposure to ultra violet rays, moisture, etc. Tarnishing is a natural process and is not a defect. Proper care and maintenance will delay tarnishing and deterioration.
