Surface Burning Characteristics*	Class B	ASTM E84

- Technical characteristics provided are merely general guidelines. And may vary from pattern to pattern. They are not instructions for any particular use in any particular location

\* Based on 15 x 15 mm. mosaics size. Test result are guidelines only.

\*\* Using Thin-set : 254 Platinum Laticrete, Thin-Set Mortar (White)

Grouted with : Mapei Keracolor Unsanded Grout with Polymer

\*\*\* Based on 10x10 mm. mosaics size. Test result are guidelines only.

### 1. General Information

- Sonite products must be kept away from high heat and fires, including direct sunlight and open flames. Do not set curling irons, blow dryers, clothing irons, or other hot objects directly on the surface of the product.
- For best results, the surface area to be covered should be completely flat and smooth, with all corners perpendicular.

### 2. Sonite products

- Differences and variations in shade, flow, grain, tonality, shape, size, veining, moisture absorption, surface finish, color (including discoloration and/or fading, and/or yellowing over time), texture, and coefficient of friction are inherent characteristics and/or occur naturally during the manufacturing process and are not, and shall not be considered, defects in the Sonite products.

### 3. Application

- Please refer to any relevant technical specifications to determine whether a collection is appropriate for an application. Any specifications or guidelines provided by Sonite are merely general guidelines. They are not instructions for any particular use in any particular location.
- Sonite products are primarily intended for use as indoor decorative wall coverings. Sonite mosaics (10, 15, 20 mm) are rated for light traffic flooring use only if installed with epoxy based tile adhesive and grout. White colored adhesives are recommended for use with translucent Sonite materials to prevent color drops.  
BUYER ACKNOWLEDGES THAT SONITE PRODUCTS MUST BE KEPT AWAY FROM HIGH HEAT (SONITE PRODUCTS ARE NOT INTENDED TO WITHSTAND TEMPERATURES IN EXCESS OF 110° C ( 230°F) AND/OR FIRES.
- Sonite products are rated for use in steam rooms with operating temperatures less than 80° C (176° F) and for wet application (showers, baths, and indoor pools). Epoxy based adhesives and grout are required for installation in steam rooms and wet environments.
- Sonite recommends Laticrete 254 platinum, Weber fix plus, and Weber color poxy that have been tested and approved for normal application with Sonite products. For applications with large ambient temperature variation or light traffic floor applications, epoxy based adhesives and grout are recommended.

We believe that the information in this catalog is reliable and offer the information in good faith without guarantee, as conditions and methods of use are beyond our control.
