## TEXTURE COLLECTION

Texture collection brings back the intense visual and tactile experience inherited by the most prestigious and wise marble processing methods. Century old practices refined and perfected overtime bring further nobility to stones already rich by their very nature.

By restlessly studying these processes down to the smallest detail, Nexion has selected four precious marble variants - Statuario, Pulpis Grigio and Crema Europa - devising surfaces that exalts the aesthetic range of their graphics with three variety of 3D textures: "rigata", "pettinata" and "bocciardata". Surfaces that, given the high reflecting power of Nexion marbles, are able to give life to fascinating and unprecedented optical effects.

The result is an exceptional 3D textured collection, able to attribute a vibrant contemporary design to an element of timeless charm as marble. A collection that brings the best inspiration of contemporary Italian design to every type of space and environment.

### Nexion installation suggestions

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tiles caliber in multi-sized applications.

Both cement and epoxy grout can be used; grout-design color matching is advisable for optimal aesthetics. It is not recommended to use grouting with coloured pigments in contrast with the colour of the tiles.
