TRAVERTINE |

# Nexion interprets Travertine

The Travertine collection conveys the deep flavor of the homonymous sedimentary rock, with a very porous consistency, used in ancient Rome to enrich monuments and private residences. Rediscovered in the following centuries, Travertine became symbol of Baroque architectural treasures that can still be admired today in Rome and in many other Italian cities.

Thanks to its raw materials knowledge, and perfected the most advanced polishing techniques, Nexion devised a new deep and transparent surface reinterpreting the beauty of Travertine vein cut, a technique that has been used since ancient times to make veins visible.

The result is a collection that attributes a contemporary personality to a stone of great prestige, a symbol of timeless beauty that keeps its charm intact over the centuries. A collection that brings the best inspiration of contemporary Italian design in every type of setting and context.

## Nexion about

Nexion is a joint venture company created by Ceramiche Speranza, a best-in-class Italian firm founded in 1961, and Simpolo, since 1977 one of the leading Italian producer of ceramics and sanitary ware.

With mastery of technology and design, we turn the best of the Italian tradition and lifestyle into contemporary ceramic surfaces that can be source of inspiration for architects and designers around the world.

Open-minded and keen to learn from customers and partners, we are committed to deliver the best quality and service and we believe that our work ends when our clients fulfill their desires and achieve their goals.

**Nexion installation suggestions**

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tiles caliber in multi-sized applications.

Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics.

It is not recommended to use grouting with coloured pigments in contrast with the colour of the tiles.
